

Attorney's Docket No.: 06666-033002

In the specification:

Please amend the paragraph beginning at page 2, paragraph

[0007] as follows:

al These and other aspects will now be described in detail, with reference to the accompanying drawings, in which: Figure 1 shows how movable mirrors may be used to deflect a beam position; Figure 2 shows an embodiment which uses a plane mirror and an array of movable mirrors; Figure 3A and 3B show a system of allowing displacements of mirrors to be kept constant; Figure 4A-4B shows an embodiment which uses two sets of movable mirrors; Figure 5A-5D shows a deflectable mirror; and Figure 6 shows a chip with an array of movable mirrors.

Please amend the paragraph beginning at page 2, paragraph

[0009] as follows:

al Figure 1 shows an embodiment that illustrates the basic concept. In Figure 1, a beam is deflected to one of two different positions based on a digital control from controller 99.
